The CEOs swore that tobacco is **NOT** addictive!

In 1994, the presidents
and CEOs of the seven
largest American
tobacco companies
testified before
Congress . . .

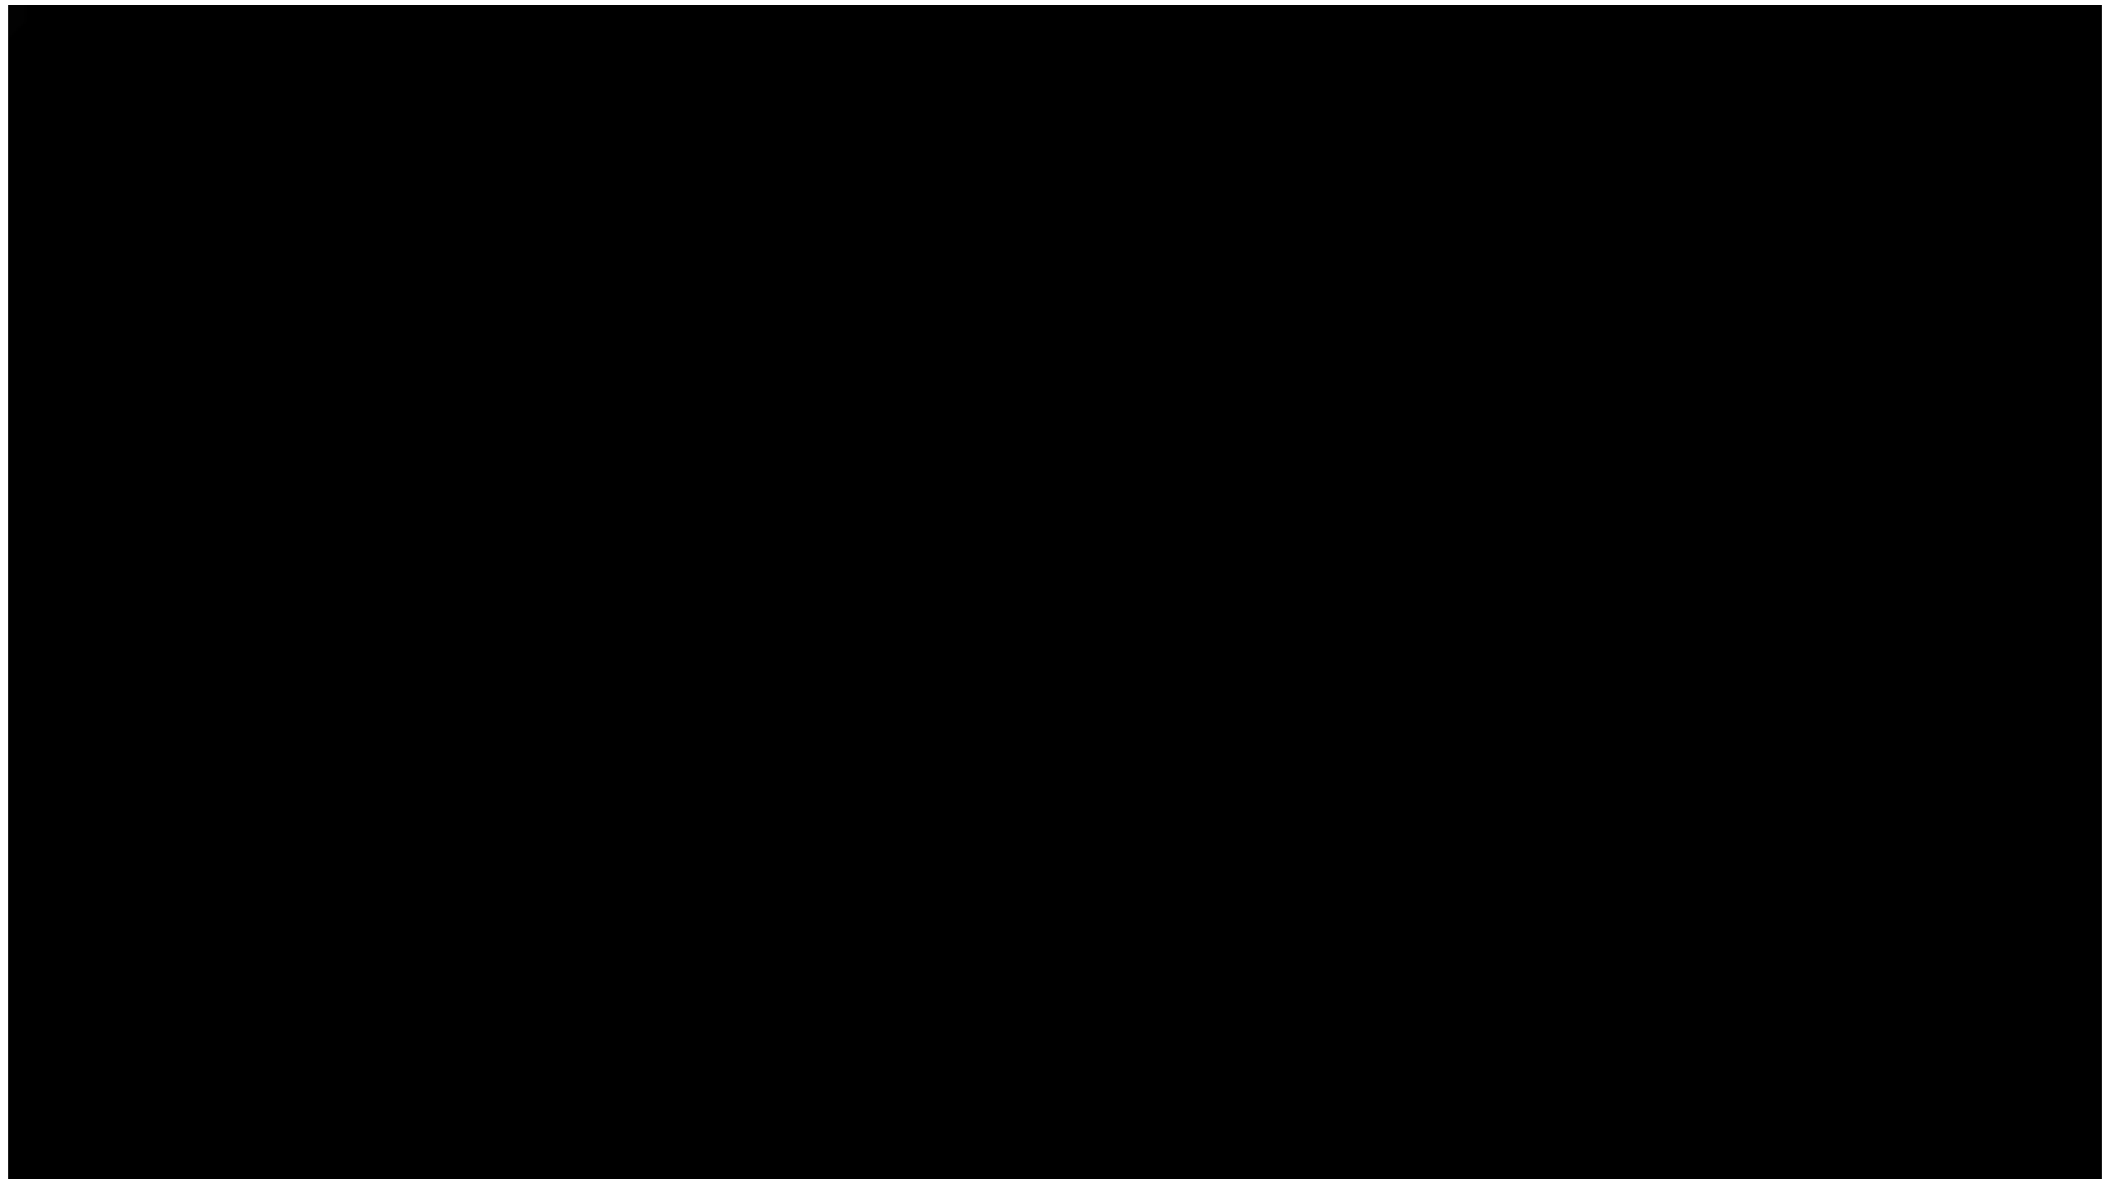

“The tobacco industry need to find a replacement for each life their product kills”

A “replacement smoker” : don’t be one and help prevent your friends

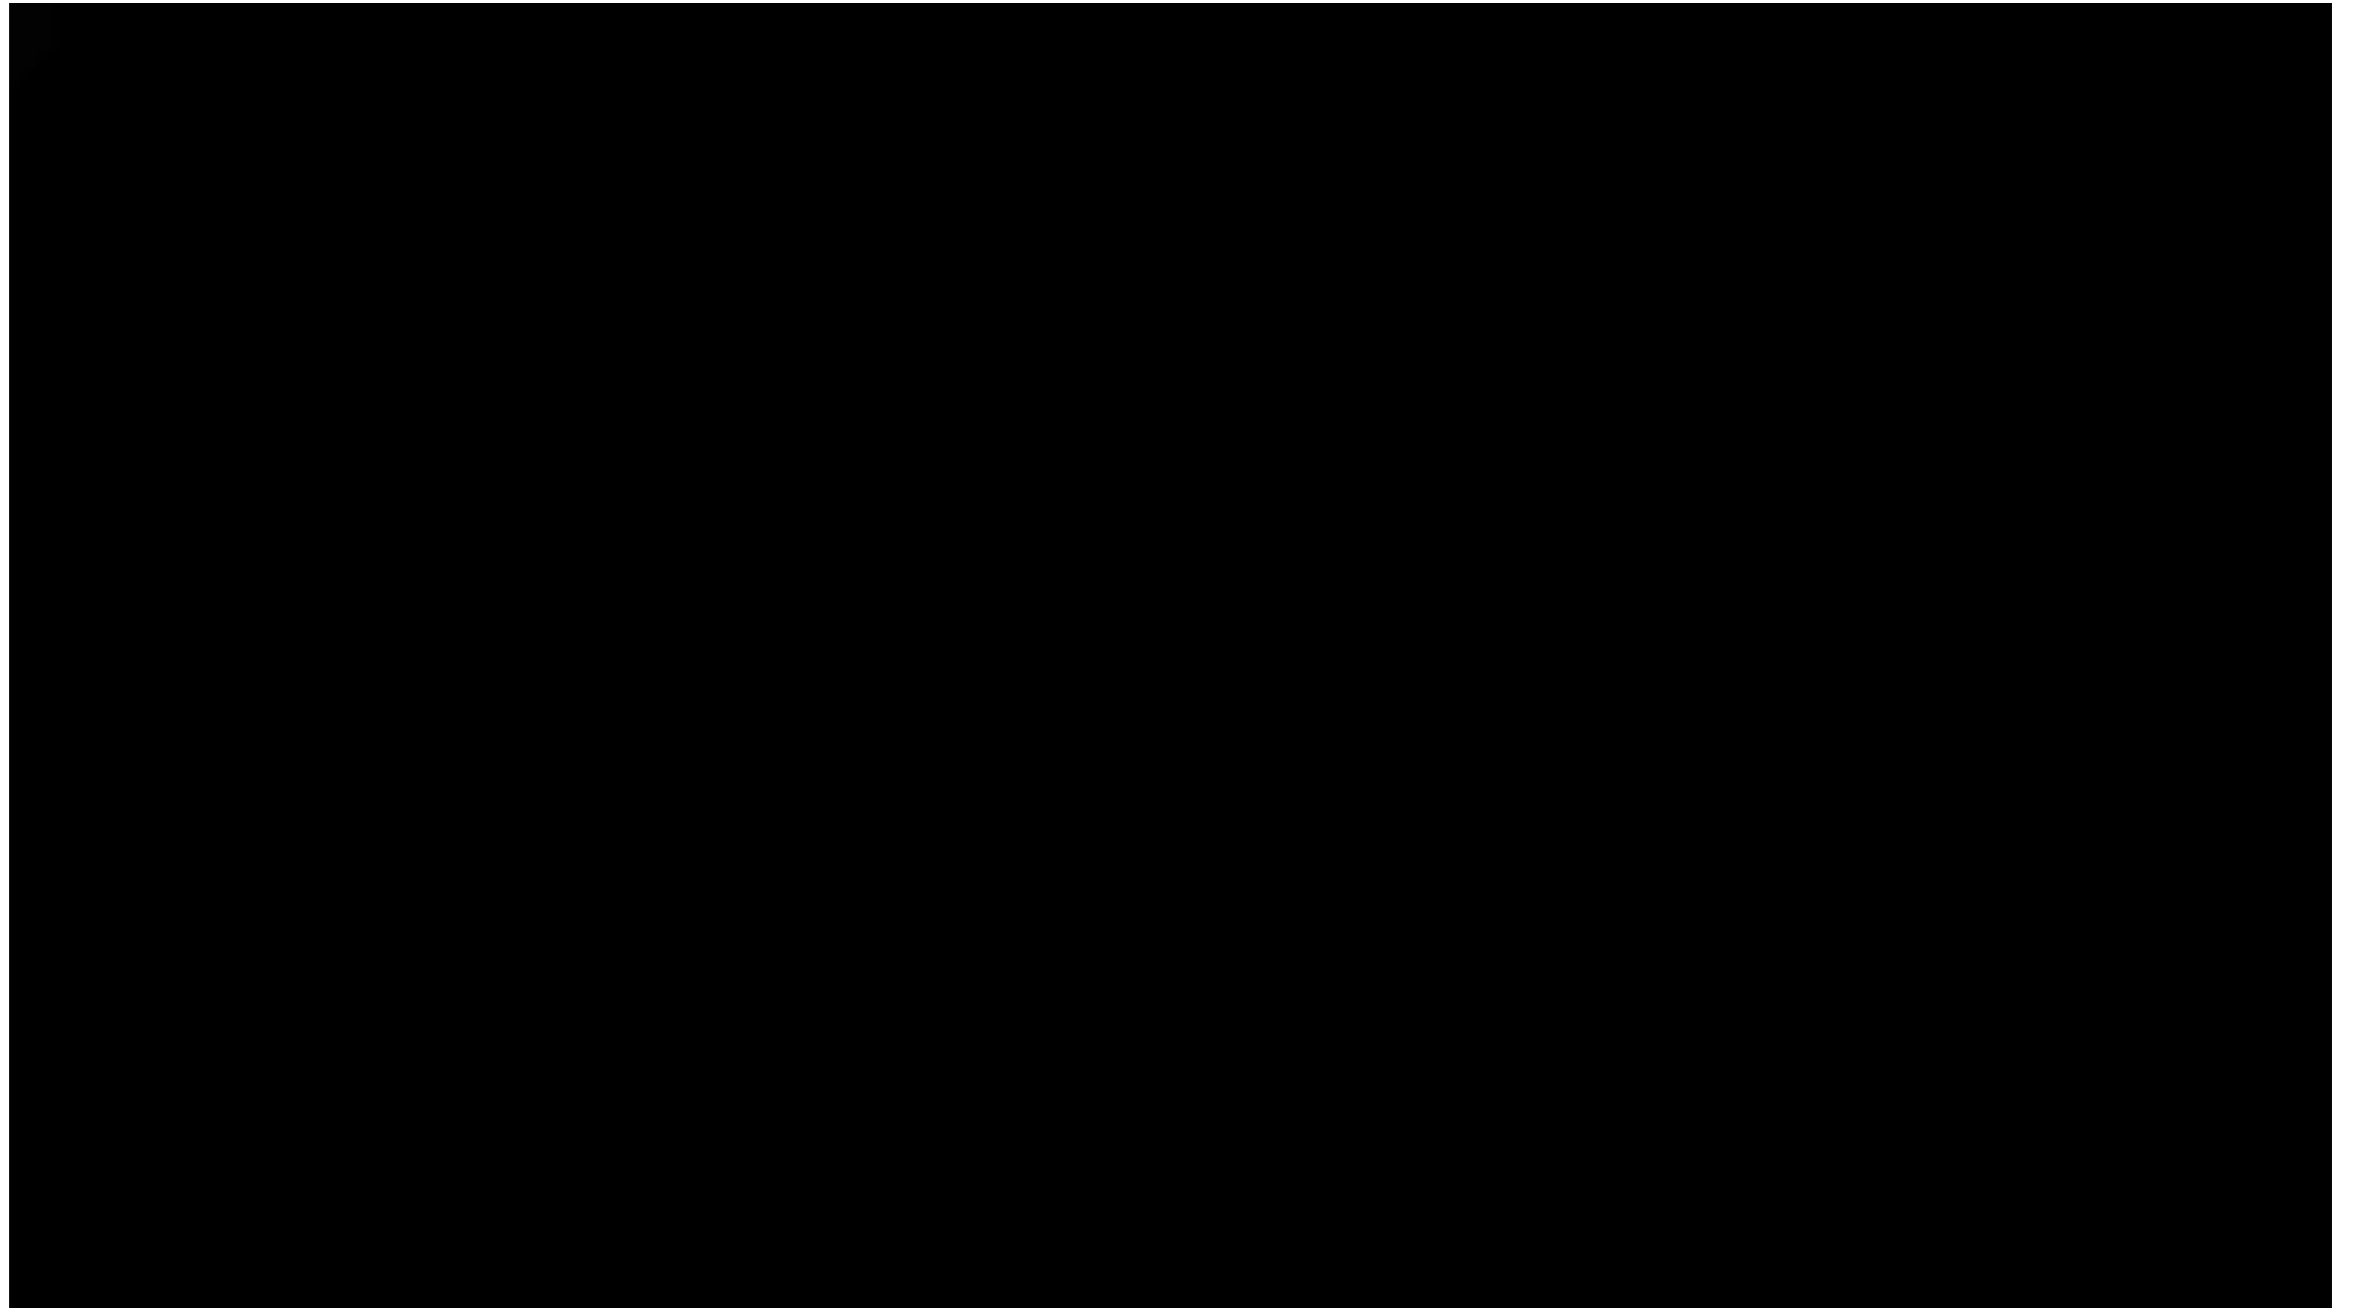

We are looking for the Millennium Generation?

Born on and after 1 January 2000

Kingdom of Smokerspore by CHIJ Secondary School, Toa Payoh

Because you are born in the 21st Century..

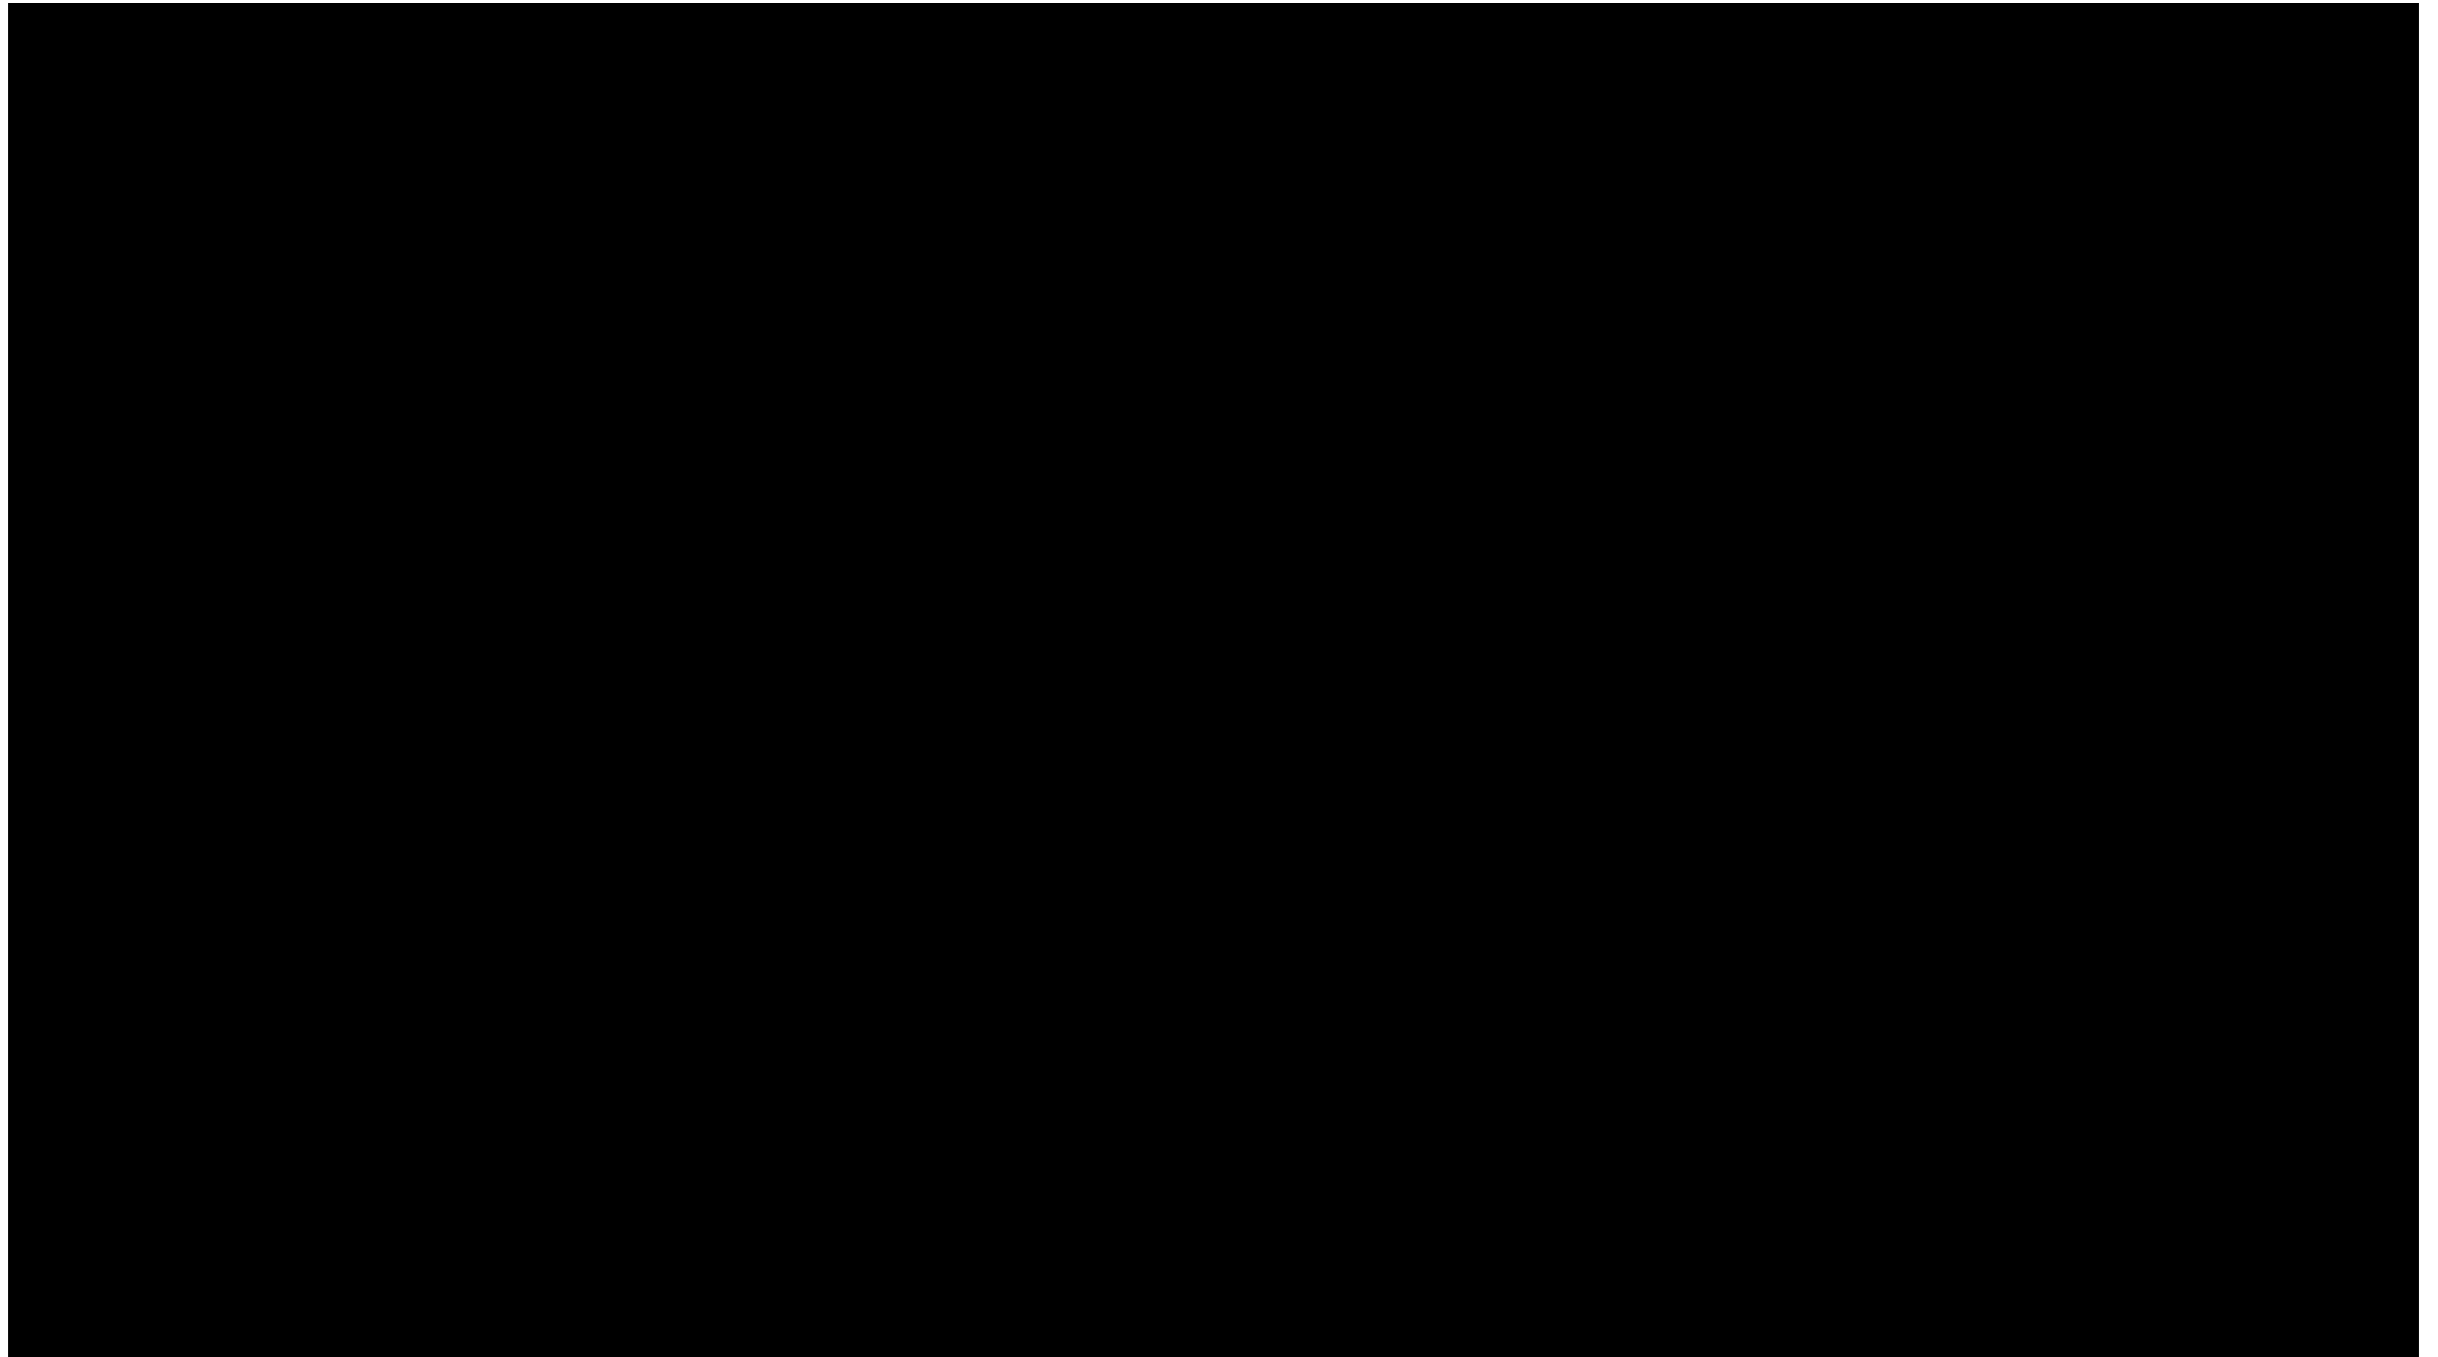

Three essential approaches

1. The new millennium generation, i.e., those born from 1 January 2000, are to be tobacco-free forever and create a life-long positive cohort effect.
2. Those born before 2000 are to encourage and support the millennium generation to stay tobacco-free.
3. All individuals are to demonstrate care and be non-antagonistic to smokers.

Tobacco Free Generation Pledge

- × We are born after (before) the year 2000, we are (will protect) the Millennium Generation.
- × We (They) will NOT smoke and (I) will prevent my friends (them) from being a “replacement smoker”.
- × A young, replacement smoker is lured by the tobacco industry. Young smokers are required by the tobacco industry to replace older, addicted smokers as many die early. The industry continue to make profit from this ignoring deaths and diseases.
- × We will protect our (younger) generation from this addiction. We (They) will not smoke whether before or after 18 years old. We know better.

Your next action for the world

- × Talk to your friends, take care that they don't experiment with ...
- × You may save 15 years of their lives ...
- × Share and take action...
